

4G IP Deskcell

Key Features

- 4G LTE Multi-Carrier Support
- 5-Way Conferencing
- 6 SIP Account
- Basic/Advance Call Features
- Multi-Language Support
- Multi-PBX Platform Support

T-Mobile
Certified

TK920 is powered by embedded 4G LTE connectivity providing primary high-speed internet which allows for VoIP service with any carrier.

QikCell TK920 is a 4G LTE + VoIP desktop phone that delivers reliable performance with an enterprise-grade sound quality over 4G cellular network. No complex ethernet wiring or firewall configuration. Plug & Play deployment. The phone can be easily moved to any location with a 4G network signal – at the office, remote location, retail, command center, home, hotel, or for any location that needs simple and reliable voice connectivity.
